

## Message from the Chairperson

It is with immense pride and a deep sense of responsibility that I welcome you to Krishnavi Charitable Trust.

Established in 2023 and registered under the Indian Trust Act, 1882, our Trust was founded with a clear and compassionate purpose—to make quality healthcare accessible to those who need it the most. Guided by our belief, *“Helping you stay healthy, no matter what,”* we have been working consistently to support vulnerable communities, particularly the elderly, destitute, and individuals facing serious health challenges without adequate resources.

At Krishnavi Charitable Trust, we strive to ensure that no individual is deprived of essential or advanced medical care due to financial limitations. Our efforts include facilitating life-saving treatments, critical surgeries, and implant support, while also promoting preventive healthcare through medical camps, awareness programs, and continuous care for chronically ill individuals.

We strongly believe that true care goes beyond medical treatment. Our initiatives focus on long-term rehabilitation, assisted living, and emotional well-being—ensuring that every individual we serve is treated with dignity, compassion, and respect. Alongside healthcare, we are committed to social rehabilitation through skill development and livelihood support, empowering individuals to rebuild their lives with confidence and independence.

Understanding the importance of holistic support, we also work to provide nutritious meals, safe shelter, and a nurturing environment, especially for elderly individuals requiring constant care.

Our journey so far has been made possible by the dedication of our team, the compassion of our caregivers, and the continued support of our donors and well-wishers. Their trust motivates us to grow, innovate, and extend our reach to touch more lives.

I invite you to be a part of this mission—whether by supporting our initiatives, partnering with us, or simply spreading awareness. Together, we can build a healthier, more inclusive, and compassionate society.

With sincere gratitude,

**Ms. Umang Sharma**
